Sheikh Hasina

Prime Minister
Government of the People's Republic of Bangladesh

Message of the Honorable Prime Minister

Bangladesh completes 50 years since its independence. I extend my heartiest greetings to the countrymen and expatriate Bangladeshis on the occasion of the golden jubilee of great independence.

The 26 March is the day of establishing self-identity of our nation. It's the day of breaking the shackles of subjugation. On this Independence Day, I recall with deep gratitude the Greatest Bangalee of all times, Father of the Nation Bangabandhu Sheikh Mujibur Rahman, under whose undisputed leadership we have earned our independence. I pay my tributes to four national leaders, three million martyrs and two hundred thousand dishonored women of the War of Liberation. My homage goes to all the valiant freedom fighters, including the wounded ones. I extend my sympathies to those who had lost their near and dear ones, and were subjected to brutal torture during the Liberation War. I recall with gratitude our foreign friends who had extended their support during our liberation war.

On the occasion of the golden jubilee of independence, colorful programs have been chalked out from 26 March 2021 to 16 December 2021 and the period from 17 March 2020 to 16 December 2021 is being celebrated as 'Mujib Year' marking the birth centenary of the Father of the Nation. In the wake of coronavirus pandemic, the Golden Jubilee of Independence and the 'Mujib Year' are being celebrated avoiding public gathering following the protocols of hygiene.

The Bangalee nation had fought against oppression and deprivation of Pakistani rulers' for long 23 years under the leadership of Bangabandhu Sheikh Mujib. They were compelled to hold general elections in 1970. Bangladesh Awami League led by Bangabandhu won absolute

majority in the elections. But the Pakistani rulers adopted repressive measures instead of handing over power to the majority party representatives. Calling for independence at the then Racecourse Ground on 7 March 1971 Bangabandhu declared, "The struggle this time is the struggle of our emancipation; the struggle this time is the struggle for independence, Joi Bangla." He instructed the Bangalee Nation to resist the enemies.

The Pakistani occupation forces unleashed a sudden attack and started massacring innocent and unarmed Bangalees on the fateful night of 25 March 1971. They killed thousands of people in different places, including Dhaka. Father of the Nation Sheikh Mujibur Rahman formally proclaimed the Independence of Bangladesh at the first hour of 26 March 1971. Bangabandhu's proclamation was spread all over the country through telegrams, tele-printers and EPR wireless. The international media also had circulated Bangabandhu's proclamation of Independence. The first Government of Bangladesh took oath on 17 April 1971 in Mujibnagar with Bangabandhu Sheikh Mujibur Rahman as President, Syed Nazrul Islam as Vice President, Tajuddin Ahmed as Prime Minister, Capt. M.Mansur Ali and AHM Kamaruzzaman as ministers. The resistance war against the occupying forces began. After a 9-month of blood shedding liberation war, the final victory was achieved on 16 December.

In the 50 years since independence what we have achieved has been achieved by Bangabandhu Sheikh Mujibur Rahman and the Awami League. In just three

and a half years of his government, he rebuilt the war-ravaged country. Destroyed roads, bridges, culverts, railways, ports were rebuilt to revive the economy. In 1975, the GDP growth rate exceeded 7%. Bangladesh gained recognition from 116 countries and got the memberships of 27 international organizations.

Our constitution was made on the basis of the spirit of the liberation war under the direction within just 10 months. In just three and a half years, he took war torn Bangladesh to the list of least developed country. While Bangabandhu Sheikh Mujib was advancing to build an exploitation-deprivation-free non communal democratic 'Sonar Bangla' overcoming all obstacles, the anti-liberation forces brutally killed him along with most of his family members on 15 August 1975. After the assassination of Bangabandhu Sheikh Mujib, the development and progress of Bangladesh came to a halt. The politics of killing, coup and conspiracy started in our beloved motherland. The assassins and their accomplices promulgated the 'Indemnity Ordinance' to block the trail of this heinous murder in the history.

Getting the public mandate in 1996, Bangladesh Awami League formed the government after long 21 years. After assuming the office, we took the initiatives to establish Bangladesh as a self-respectful in the comity of the nations. Through the introduction of social safety-net programs, poor and marginalized people are brought under government allowances. We made the country self-sufficient in food production with special emphasis on agricultural production. The Ganges Water Sharing Treaty was signed with India in 1996. We signed the historic Peace Accord in 1997 with the aim of establishing peace in the Chittagong Hill Tracts. By repealing the 'Indemnity Ordinance', we started the trail of Bangabandhu's assassination.

Forming government in 2009 in consecutive three-terms, Bangladesh Awami League Has relentlessly been working to improve the fate of the people inspired by the spirit of the great liberation war. We are implementing the unfinished works of the Father of the Nation. Today, Bangladesh is self-reliant in food production. The poverty rate has come down from 42.5% to 20.5% in the last 12 years. Our Sovereign rights over a vast area in the Bay of Bengal have been established through the peaceful settlement of maritime disputes with Myanmar and India. The implementation of the Bangladesh - India Land Boundary Agreement has put an end to the protracted inhuman life of the enclave people. The nation has become free from stigma by executing the verdict of Bangabandhu Murder case. The trail of war criminals continues and the verdict is being executed.

We have formulated the Second Perspective Plan for 2021-2041 and adopted the 8th Five Year Plan. We have started the implementation of 100-year 'Delta Plan 2100' for the first time in the world. Today, the benefits of 'Digital Bangladesh' have been expanded from urban to remote village level.

On the occasion of 'Mujib Year', some 8 hundred 92 thousand homeless people are being provided houses. 70 thousand houses have already been handed over. Another 50 thousand houses are under construction.

A total of 9 lakh 98 thousand 346 families have been provided accommodation since 1996. The civic facilities of the city are being delivered to every village. 99% people are taken under electricity coverage. To keep the economy going offsetting the impacts of Coronavirus, we have so far announced 23 stimulus packages worth Tk 1.24 lakh crore, which is 4.44% of our GDP.

The independence earned through supreme sacrifices of millions of people is the greatest achievement of Bangalee Nation. To ensure that the achievement remains meaningful, all have to know the true history of our great Liberation War and respect the spirit of independence. The spirit of the Liberation War has to be propagated from generation to generations.

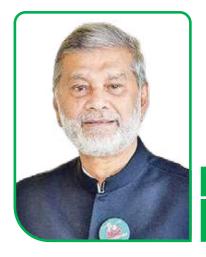

The persistent efforts of the last 12 years of the Bangladesh Awami League government have brought the final recommendations for Bangladesh to become a dignified developing country on the eve of the Golden Jubilee of Independence. This is a huge achievement for us.

Under the leadership of Bangabandhu Sheikh Mujib, the brave Bangalees liberated the country through the war of liberation within just nine months. I firmly believe that if this trend of development continues, Bangladesh will soon be established as a developed prosperous country in the world, InshaAllah.

Let us take oath on this auspicious occasion of the golden jubilee of independence - imbued with the spirit of the Great War of Liberation, we all together will build hunger-poverty-illiteracy-free Golden Bangladesh as dreamt by Father of the Nation Bangabandhu Sheikh Mujibur Rahman.

Joi Bangla, Joi Bangabandhu May Bangladesh Live Forever.

Sheikh Hasina

Muhammad Abdul Mannan

Minister, Ministry of Planning Government of the People's Republic of Bangladesh

Message of the Honorable Planning Minister

I would like to express my heartfelt greetings to our countrymen living here and abroad on the occasion of the 50th year of Independence.

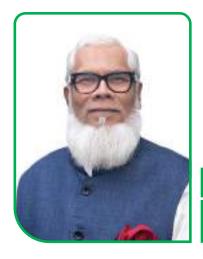

I am happy to be enlightened that Foreign Investors' Chamber of Commerce (FICCI) has taken such a significant initiative and is about to unveil a research report on the 3 growth drivers focusing on the investment opportunities in Agribusiness, Digital Economy and Green Finance. I believe this roadmap presentation on the 3 growth drivers will be a good reference in the development planning and will bring in Foreign Development Investment (FDI) to aid our economy flourish in all sectors.

We also need to keep this in mind that these driving sectors will be the key agents of success. Besides this initiative will also focus on a host of small yet strategically important sectors. Supporting their competitiveness through sharing global best practices and exploring policy opportunities in Bangladesh will be key to unlocking the potential across the economy.

Moreover, focusing on agribusiness, digital economy (IT and ITES), and green financing for climate-smart investments holds enormous and high-impact potential for all. Each of these areas fares very prominently in the National Industrial Policy 2016, Export Policy 2018-21, and in the national development plans and in the principal development strategy documents like the country's 8th Five Year Plan, Digital Bangladesh Strategy and the Perspective Plan 2041.

The 50th year of Independence will be observed with great enthusiasm and we hope that unlocking our true potential will help us to become a developed country which has been our dream since independence.

Joy Bangla

Salman F Rahman

Adviser to the Prime Minister Private Industry & Investment Government of the People's Republic of Bandladesh

Message of the Honorable Adviser to the Prime Minister on Private Industry & Investment

At the very outset, I would like to convey my warmest greetings to my countrymen and expatriate Bangladeshis on the occasion of our 50th year of independence.

On this Golden Jubilee of Independence, I would like to express my deep sense of gratitude and pay tribute to Bangabandhu Sheikh Mujibur Rahman, the father of the nation and the greatest Bengali of all time who has always been our source of inspiration, under whose able guidance we achieved our long-awaited independence.

Bangladesh intends to be an Upper-Middle-Income Country by 2031 and a Developed Country by 2041, and it has every right to do so. Our current government, under the able leadership of Honorable Prime Minister Sheikh Hasina MP, is working tirelessly over the last decade to transform Bangladesh into a developed and resourceful country, and it is planning to move forward with numerous strategies that include increasing employment, attracting Foreign Direct Investment (FDI), and other trade and business prospects.

I do hope that the Foreign Investors' Chamber of Commerce (FICCI) will be able to demonstrate a path for FDI which will eventually pave the way for Bangladesh's economic advancement. The nation will be apprised of a research report titled "3 Growth Drivers of Bangladesh: Accelerating Investment Opportunities in Agribusiness, Digital Economy, and Green Finance." I firmly believe this will be an excellent resource for our development planning, policy formulation, and an essential tool for foreign investments.

Each of these sectors has a high potential for meeting the country's economic goals, such as creating employment for a large number of young and skilled people, increasing export earnings, making significant impact on small and medium enterprises, unlocking potential for long-term sustained growth, and exploring new investment opportunities. In light of best practices of the developed nations, finding significant policy gaps and devising required action plans that will be very much pertinent to address the impediments to FDIs.

I would like to appreciate FICCI's effort for their commendable initiative to support the cause of our government and hope that we would be able to reach new heights by becoming a prosperous and developed nation within a short span of time.

MD. Sirazul Islam

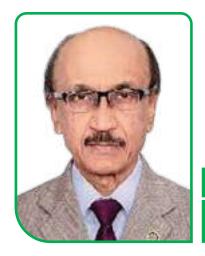

Executive Chairman BIDA

Message of the Honorable Executive Chairman, BIDA

I am delighted to know that the Foreign Investors' Chamber of Commerce & Industry (FICCI) has conducted a study to highlight the potential of Agribusiness, Digital Economy, and Green Finance in Bangladesh.

These sectors are poised to contribute substantially to Bangladesh's journey towards irreversible growth. Bangladesh already offers a massive domestic market, easy access to key global markets, and a wide array of attractive incentives for potential investors. FICCI's study, which discusses best practices and other insights, will act as a guide for stakeholders in Government and the private sector.

I, therefore, commend FICCI and its partners for the study initiative to support the Government and for enhancing our understanding of the potential for private investment in these emerging sectors.

Fazle Kabir

Governor
Bangladesh Bank

Message of the Honorable Governor, Bangladesh Bank

I am pleased to know that the Foreign Investors Chamber of Commerce and Industry (FICCI) will launch a research program on "Growth Drivers of Bangladesh: Accelerating Investment Opportunities in Agribusiness, The Digital Economy, and Green Finance" and the FICCI is going to publish a useful research report on this occasion.

FICCI has been playing a critical role in promoting trade and commerce of the country and enhancing the image of Bangladesh as an attractive destination for foreign investors. Bangladesh has seen revitalization in the agriculture sector with modernization of agriculture processes and inputs that has created scope for new entrepreneurs and export opportunities. Our digital economy also performed reasonably well amid the COVID pandemic during a period marked by physical limitations in our everyday life. Besides, Bangladesh Bank has taken various steps in

encouraging the growth of agricultural credit and ensuring that farmers are the real beneficiaries of credit growth. In addition, Green Finance is concerned with directing flow of funds towards environmentally sustainable activities. Bangladesh Bank has endorsed the growth of sustainable finance through policy formulation and monitoring. The policy makers may take more steps in this regard in boosting so that our economic growth can flourish at the targeted level.

I hope that FICCI's research work will identify the existing gaps and give us insightful inputs for better policy design and implementation and the study on "Accelerating investments opportunities on the 3 growth drivers: Agribusiness, Digital Economy, and Green Finance" will be a good reference for our development planners and policy makers. I wish the event a grand success.

Md. Jashim Uddin

President FBCCI

Message of the Honorable President, FBCCI

I express my warmest greetings to my countrymen and the Bangladeshis living abroad on the occasion of our 50th year of Independence and the birth centenary of our great leader, Father of the nation Bangabandhu Sheikh Mujibur Rahman.

FICCI has been relentlessly working to bring foreign investment into the country and accelerate the country's development. I firmly believe that the publication titled "Growth Drivers of Bangladesh: Accelerating Investment Opportunities in Agri Business, Digital Economy, and Green Finance" will add a new dimension to FICCI's activities. Certainly, this initiative will be a great resource for policy makers in determining the development plan, policy formulation and implementation strategy of the country. At the same time, it will make foreign investors interested in investing in Bangladesh. Which

will open new doors of potential for our country. Therefore, I would like to acknowledge FICCI's effort for their commendable initiative to support our government and hope that we reach new heights by becoming a prosperous developed nation.

As the country's apex trade body, the FBCCI has always been a collaborating force of the government in economic development of the country. As part of this, The FBCCI has been tirelessly pursuing Policy advocacy and establishing strategic business relationships with trade bodies in different countries. As it does now, The FBCCI will continue to support FICCI's efforts to attract foreign investment in future.

I wish the event a grand success.

Mahbubur Rahman

President ICC - Bangladesh

Message of the Honorable President, ICC - Bangladesh

I am very pleased to learn that the Foreign Investors' Chamber of Commerce and Industry (FICCI) is about to unveil a research report titled "Accelerating Investment Opportunities on the Three Growth Drivers: Agribusiness, Digital Economy, and Green Finance".

Bangladesh intends to be an upper-middle-income country by 2031 and a developed country by 2041, and it has every indicators to do so.

The government has worked tirelessly over the years to transform Bangladesh into a developed, resourceful nation, and it is seeking to progress with numerous strategies that include increasing employment, attracting Foreign Direct Investment (FDI), and other

commercial prospects. Increased private sector involvement, remittances, economic liberalization, and trade integration are all factors that have contributed to Bangladesh's resilience and prosperity.

Moreover, I feel this research work will be an excellent resource to bring in more foreign investments into the country. The 50th year of Independence is being observed with great enthusiasm; as Bangladesh will enter into a new chapter and a new horizon.

With the united efforts of all of us, let our beloved motherland be a developed nation; it is my ardent aspiration on this day of our victory in the Liberation War.

Rupali Haque Chowdhury

President

Foreign Investors' Chamber of Commerce & Industry (FICCI)

Message of the Honorable President, FICCI

Welcome to the Mega Celebration of Foreign Investors' Chambers of Commerce and Industry (FICCI). It is my pleasure to have your presence in this auspicious event. Today we are celebrating the 50th Year of Independence of Bangladesh and the Birth Century of our Father of the Nation Bangabandhu Sheikh Mujibur Rahman.

FICCI, as an apex body of foreign investors, remains focused on attending issues of interest to its members and key stakeholders. FICCI is affiliated with the Federation of Bangladesh Chambers of Commerce & Industry (FBCCI) as an 'A' class Chamber and is a founder member of the Bangladesh chapter of the Paris-based International Chamber of Commerce-Bangladesh (ICC-B). The Chamber maintains regular communications with the International Trade Center (ITC), Geneva, and the World Trade Organization (WTO), Paris. Unlike other bilateral foreign chambers in Bangladesh, FICCI is the only chamber in the country, which welcomes to join any foreign investors regardless of their state of origin.

FICCI is here to extend full support to the Government in promoting FDI. FICCI has been providing National Budget Proposals to the government regularly not only to improve its revenue collection but also to make a business-friendly atmosphere for doing business in Bangladesh. FICCI provides a forum for the foreign investors to interact with each other and helps build confidence among the existing investors on the seriousness of the Government to effectively implement policies and commitments. The Chamber will continue its participation in all activities aimed at attracting foreign investment in the country with relevant stakeholders. We look forward to a constructive partnership with all the stakeholders, as we believe, Bangladesh offers a great opportunity for growth and development. If appropriately engaged, the Chamber and its members have the capacity and the capability to contribute significantly in raising the level of FDI to Bangladesh despite these challenging times.

About FICCI

The Foreign Investors' Chamber of Commerce & Industry (FICCI) is an apex body of foreign investors, jointly working together in the economic growth of Bangladesh with their active participation in more than 21 sectors of development since 1963, making Bangladesh the next Asian tiger.

FICCI has been a major partner in Bangladesh's economic success since the nation's inception in 1971. This feat has been achieved through various activities, including:

- Bringing foreign investments in Bangladesh
- Building leaders
- Bringing in technical know-how and technologies
- Developing skilled workers through HR development

FICCI boasts of some of the most influential organizations as its members, who actively participate and contribute in various economic decision-making of the nation. A member of the World Chamber in Paris, FICCI is thriving to continue its partnership in building this nation and excited to observe Bangladesh's continued success and growth.

In Search of New Growth Drivers for Bangladesh: Accelerating Investment Opportunities in Agribusiness, Digital Economy, and Green Finance

Dr. M. Masrur Reaz

Chairman and CEO,
Policy Exchange of Bangladesh

In just five decades of independence, Bangladesh has managed to transition from fragility to middle-income status and has set an example of a developmental success story. Several factors contributed in the resilience and growth that Bangladesh has exhibited including higher private sector engagement, remittances, economic liberalization and trade integration.

Building on this success, Bangladesh rightly aspires to be an Upper Middle-Income Country by 2031 and a Developed Country by 2041. Achieving these targets imply that Bangladesh will need to enter a more coordinated phase of policy agenda and reforms to sustain its recent growth trajectory and improve overall competitiveness. Moreover, this significant expansion of the economy is necessary as Bangladesh needs to provide gainful employment to 2.2 million workers that are joining the workforce every year.

Diversification of, and more dynamism in formal sector are required for large-scale formal job creation and extending quality gains into the informal sector. Bangladesh will need rapid growth in the formal sector in order to see significant gains in job quality. For example, reaching a target of 35 percent of workers in wage employment by 2025 (from 22.3 percent today)3 would require the creation of 1.35 million formal sector jobs each year over the next decade. This is 2.5 times the number of wage jobs that were created in the period 2003-2015. This implies that the formal sector will need to grow several times faster than the overall economy to sustain a sufficient pace of quality job creation. While the established sectors such as RMG continue to fuel prosperity, unleashing potential of new growth drivers will be key in expanding the formal sector opportunities. This requires creating and/strengthen markets and mobilizing greater flow of private investments in new growth sectors.

Formalization of the economy is needed for large-scale job creation which economic diversification can trigger. One of the key challenges of Bangladesh is to provide gainful employment to 2.2 million people joining the labor force every year. Moreover, the country is experiencing a demographic dividend, albeit labor is mostly unskilled moving from agriculture to labor intensive industries. This implies that the formal sector will need to grow

In pursuit of A BETTER TOMORROW

Over 75% of ready-made garment (RMG) workers in Bangladesh have no running water inside their residences.

Shujola project, providing safe drinking water to RMG workers' communities in Dhaka and Chattogram, was inaugurated in November 2020.

Shujola Project, implemented by Swisscontact Bangladesh in partnership with JTI Bangladesh, is a part of JTI's ambition of providing 1 million people with access to clean water, sanitation and hygiene in developing countries by 2025.
